ServSafe Proctor Eligibility Checklist

FoodSafetyMadeEasy.com

Zero to Paid — Proctor Toolkit

BEFORE YOU CAN REGISTER AS A PROCTOR, CONFIRM YOU MEET THESE REQUIREMENTS

- I hold a current ServSafe Food Protection Manager Certification

Your certification must be active — not expired. It is valid for 5 years from the date you passed.

- My certification has not expired

Check the expiration date on your certificate. You cannot register or proctor with an expired cert.

- I am prepared to renew my proctor registration annually

Proctor status must be renewed every year through ServSafe.com.

- I understand I am a proctor, not an instructor (unless separately credentialed)

Proctors administer the exam only. Instructors can also teach the course. These are separate credentials.

- I have reviewed the ServSafe Instructor/Proctor page at ServSafe.com

Go to ServSafe.com → Instructors/Proctors → Learn to confirm current requirements for your state.

- Some states have additional requirements beyond the national ServSafe standard. Check your state's regulations at ServSafe.com under "State Regulations" before you register.
