

Client Journey — First Contact to Exam Day

FoodSafetyMadeEasy.com | Zero to Paid — Proctor Toolkit

1 First contact

Phone, email, or walk-in. Qualify the client — proctoring only, or class + proctoring?

2 Send the Package List

Let the client self-select the service that works for them.

3 Confirm the booking

Date, time, location, and number of students.

4 Collect payment

Before exam day. No exceptions.

5 If necessary — order exam codes

Purchase through your ServSafe.com dashboard.

★ ALERT

Ensure students have basic knowledge before class day. Unprepared students slow the session and increase failure rates. Recommend SafePrep (\$4.99) when booking — it tells them when they are ready.

6 Send confirmation email

Use Template 3 — includes date, time, location, and what to bring.

7 Exam day prep

Verify exam codes, test hotspot, confirm location, prepare materials.

8 Schedule exam at ServSafe.com

Record your Session # and Proctor Access Code before exam day.

9 Run the session

ID check on arrival, read instructions aloud, monitor the room, collect completed exams.

9a. If offering a class — ensure all questions are asked and answered before you start proctoring.

10 Submit the session

Email or print certificates directly from the ServSafe website. Recommended: email certificates to yourself to keep on file.

11 Follow up

Employer-sent students: contact the employer, confirm all certificates, note renewal date. Walk-in / self-pay students: add to your renewal database — their cert is valid for 5 years. Set a reminder at 4 years and 10 months.

11a. Add every student to your database regardless. A 5-year renewal is a guaranteed future client.

12 Request a review / referral

Best time to ask is right after a pass. Leave a business card. A happy client is your best marketing.

Repeat this process for every client. The system is the business.
