

**Subject** ServSafe Certification — Here's What You Need to Know

---

Hi [First Name],

Thank you for reaching out. There are a few ways to prepare for the ServSafe Manager exam:

- Study on your own
- Take a ServSafe online course (approximately \$125)
- Use the SafePrep app (\$4.99) — it adapts to how you learn and tells you when you are ready

Once you are ready, you will need a certified proctor to administer the exam. That is where I come in — I handle the proctoring so you can focus on studying.

When you are ready to schedule, just reply and we will set it up.

Good luck — and feel free to reach out anytime.
