

Subject ServSafe Certification — Here's What You Need to Know

Hi [First Name],

Thank you for reaching out. There are a few ways to prepare for the ServSafe Manager exam:

- Study on your own
- Take a ServSafe online course (approximately \$125)
- Use the SafePrep app (\$4.99) — it adapts to how you learn and tells you when you are ready
- Or if you prefer, I can come to you and teach the class — I offer several packages that include instruction, the exam voucher, and proctoring all in one

If any of my packages interest you, just reply and let me know. I am happy to walk you through the options.

Good luck — and feel free to reach out anytime.
