

SubjectServSafe Certification — Local Proctor Available

Hi [Contact Name],

My name is [Your Name] and I am a certified ServSafe instructor and proctor serving [Your Area]. I help food service businesses certify their managers from start to finish — I teach the class, provide the exam, and proctor it all in one session.

ServSafe Manager certification is required for food service managers in most states, and I make the process simple:

- I come to you — no need to send staff offsite
- Flexible scheduling including evenings and weekends
- Group sessions available — one visit covers your whole team
- Class, exam voucher, and proctoring bundled in one package
- Fully online exam — candidates just need a device

If you have staff who need certification now or coming up for renewal, I would be glad to put together a quick quote.

Feel free to reply here or call me. I am happy to answer any questions.
